Al Ahli Arab Christian Hospital in Gaza has experienced: Increased capacity from 50 to 250 beds, and depleted medical staff, no anesthesiologist, only one radiologist. Severe shortages of medicine, equipment, and fuel. They care for 100-120 patients daily; 1,000 surgeries a month. They are the only functioning ICU in Gaza: 3 beds for 500,000 people; power supplied by generators requiring 1,000 liters of scarce fuel/day.

Fuel, medicine, and equipment - \$500-\$10,000 donation
